

Older Adult Home Safety Resource List

The Home SAFE Project is pleased to provide this resource as part of its efforts to increase home safety awareness and activities in Los Angeles County.

With the mission to increase home safety awareness and activities for older adults, the Home Safety Adaptations for Elderly Project (Home SAFE) focuses on four aspects of home safety:

- 1) Fall prevention  : elimination of hazards such as throw rugs, clutter in pathways
- 2) Home modification  : changes in the home environment to improve safety such as grab bars and better lighting
- 3) Fire protection  : measures such as smoke alarms and escape plans
- 4) Carbon monoxide (CO) and lead poisoning prevention (LD): measures such as carbon monoxide alarms, clean furnace and air filters

There are numerous organizations and agencies in Los Angeles County that provide home safety programs and services for older adults. Listed below are local, state, and national resources to direct older clients, residents, and patients in need of home safety services. Visit www.stopfalls.org/HomeSAFE for online access to this resource list.

Those interested in the resources listed are encouraged to contact the organization or agency for the most up-to-date information.
